

ALEWIJNSE

The allround
system
integrator

ALEWIJNSE

THE ALLROUND SYSTEM INTEGRATOR

At Alewijnse we believe that the best results are accomplished together. That's why we like to work with partners to combine our knowledge and expertise. But it is also the talents of our employees, combined with those of others, that lies at the heart of our innovation.

About Alewijnse

Alewijnse has over 130 years of experience in marine and industrial technology, and undertakes projects around the world. As an allround systems integrator, the company supplies a comprehensive range of technical solutions.

Our company works on a great number of vessels and industrial installations every year in sectors that include yachting, naval & governmental, dredging & offshore, and industry. This work includes contracts for new build, refits, and repair & maintenance projects. In response to the ever-increasing need for sustainable operations, Alewijnse is at the forefront of designing environmental friendly propulsion and energy-efficiency systems for maritime and industry.

- Vessel automation
- Safety & Security

Our Expertise

- Advise & Consultancy
- Project Management
- System integration
- Design & Engineering
- Site management
- Commissioning
- New build, Refit & Conversions
- Service & Maintenance
- Spare parts delivery
- Training

THE MARKETS THAT WE SERVE

Yachting

In the construction of large super yachts, we are the top partner for high-quality systems and innovative applications.

Naval & Governmental

The highest standards in quality, that all top advanced systems will continue to function under the most extreme conditions.

Dredging, Offshore & Transport

When all kinds of systems become more and more complex, they must also become safer, faster, more reliable, more efficient and more professional.

Industry

Automation and digitisation help in challenges such as cost reduction, asset life, reduced CO2 emissions and energy savings.

ALEWIJNSE

THE ALLROUND SYSTEM INTEGRATOR

Alewijnse is continuously dedicated to substantial undertakings encompassing new constructions, refits, and service & maintenance ventures

These endeavours encompass an array of projects, from extensive superyachts (measuring at least 60 meters in length) to marine and government vessels, as well as dredging, transport, and offshore operations.

We are also engaged in the industrial domain, with a focus on the sectors of drinking water-, food manufacturing-, geothermal-, and renewable energy applications.
